

Grafic is a scraper walk-off entrance mat for hightraffic commercial applications, available in solid colours with a subtle, graphic pattern.

### **Design**

Grafic's solid, dark grey, felt-like fabric is available in a range of printed designs. Choose an organic design, with a random pattern, like Stones. Or select one of four, geometric grid patterns – Rings, Squares, Comb and Grid. Squares is made up of small squares. With Grid, the spaces between the squares are printed. While Squares is a more solid design, Grid is more open and geometric. Comb is derived from honeycomb: a popular motif for upholstery fabrics, floor coverings and wallpaper.

### **Matching all floors**

Our designers develop colourways that complement every interior style. For ambiences ranging from classic to modern design. The broad Rinos range always has the right solution, to complement both interior design and floor type. Make your own combination on our website and be inspired by our options.

# PUR A BACKING

Pura Backing™ is a unique Rinos product innovation, developed by our R&D department. It's the Rinos answer to increasing demand for more environmentally friendly and sustainable entrance mat solutions by avoiding the use of PVC and plasticisers. Mats with Pura Backing™ meet this requirement – with zero PVC and plasticiser content, avoiding stains on porous subfloors. Thanks to increased flexibility, it is even easier to install!
